# **Spring Plungers** • with ball and slot - INCH 2B050.0122

# **Product Description**

To be used for positioning, indexing, locking, latching as well as for other similar pressure applications.

Spring plungers can be used for locating or for applying pressure, as a detent or for ejection.

# **Material**

#### Body

• Stainless steel 1.4305 (ASTM-A-582)

#### Ball

· Stainless steel, hardened

#### Spring

Stainless steel

#### More information

Light spring load

Characteristic

#### Notes

Special types on request.

Spring plungers are specially tested for spring range and forces.

Standard spring load

• This product is manufactured in INCH dimensions.

#### References
