

Spring Plungers • smooth, without collar

22080.0382

Product Description

Spring plungers can be used for locating or for applying pressure, as a detent or for ejection.

Material

Body

- Stainless steel 1.4305

Ball

- Stainless steel, hardened

Spring

- Stainless steel

Assembly

The locating hole has to be adapted to each individual application case. We recommend an F8 size location hole for easy assembly and a H9 size when tight fit is required.

Characteristic

Heavy spring load: marked with two lines

Standard spring load

Heavy spring load

More information

Notes

Special types on request.
Spring plungers are specially tested for spring range and forces.
