

Spring Plungers • smooth, with collar and ball

22080.2008

Product Description

Spring plungers can be used for locating or for applying pressure, as a detent or for ejection.

Material

Body

- Stainless steel 1.4303

Ball

- Stainless steel, hardened

Spring

- Stainless steel

Assembly

A tolerance of H7 is recommended for the locating hole of d_1 .

Characteristic

Heavy spring load: marked with two lines

Light spring load

Standard spring load

Heavy spring load

More information
