

Hand axe • with leather handle, including high-quality leather belt bag as cutting protection; in attractive wooden box EH 3555.

Product Description

These nylon inserts for SUPERCRAFT mallets (series 3508.2) are distinguished from the standard line by their rounded impact surface. It prevents impressions or damage to the material as it does not have any edges. These white polyamide inserts offer outstanding impact qualities and are guaranteed to combine maximum strength with unique durability. They consist of extruded and extremely homogeneous material and are very hard at approx. 73 Shore D. Compared to injection moulded plastic inserts, they are therefore considerably more wear-resistant and durable and will never chip even in sub-zero temperatures. They hold up to the high impact forces generated by non-rebound soft-face mallets. Oil and grease resistant, they are also used in Halder's punches and drop-mallets.

This special shape is available in sizes of D25mm D30mm, and D40mm.

Product features:

- Robust all-metal design made of special heat-treated steel.
- Finely ground and polished on all sides.
- Weight of 1,000g is perfectly balanced.
- Anti-slip leather handle contours to the shape of the hand.
- Including high-quality leather belt bag as cutting protection.
- Perfect gift thanks to attractive wooden box.

Application Areas

Splitting of smaller logs and kindling, for sharpening wooden stakes, rough carving tasks, useful outdoor tool for campers, hunters, off-roaders, etc.

Material

- Heat-treated steel, jointless forged in one piece, precision ground and polished on all sides
